You see this guy a lot. When something needs to be done, he's there. From getting us speakers for our monthly chapter meetings, to being the key guy preparing for all our Young Eagles Saturdays. What? You thought the hangar just magically transformed itself and all those parked airplanes politely moved out of the way? Not hardly. Chuck Gosselin shoulders a lot of responsibility for the chapter and never seeks recognition. So it's time. Thank you, Chuck. We appreciate all you do.

Special points of interest:

- Our next meeting will Monday, June 20th at 7:00 p.m.
- Young Eagles Rally Saturday, June 18.
- It's the perfect time to tell Chris St. Germain of any interested groups for Young Eagles, and remember that you can fly individuals also
- Remember that Charles Gosselin is always looking for good ideas for programs!

President: **Larry Young**
 Vice President and Young Eagles Coordinator: **Chris St. Germain**
 Secretary/Treasurer: **Pam Ratliff**
 Board: **Chuck Gosselin (also programs chair), Bob Gurski, Mike Dooley, Paul Rodriguez**
 Tech advisor: **Mark Burrow**
 Maintenance: **Bill Herrold**
 Newsletter: **Bruce Hood**

 Lee's Summit, Missouri**

Winging It

EAA Chapter 91 President,
Larry Young

EAA CHAPTER 91 TO THE RESCUE AGAIN - - AND AGAIN!

Early in May I received an e-mail informing me we would have a visitor named Alex from Guatemala. The sender was asking if Chapter 91 could take Alex for a short airplane ride to show him the area. Alex is a young adult orphan who for a time lived on the streets. There he saw many needs of his people like older people who had never, in all their lives, slept in a bed. He decided to do something about it. Alex started a bunk bed project. Today he travels far and wide telling his story and delivering bunk beds to the poor.

Needing someone to give Alex a flight, Chuck Gosselin said "I'll do it!" and on May 14th Chuck flew Alex to Miami County Airport where they had breakfast at the We-B Smokin' restaurant. While there he met several Chapter 91 members. And, I feel confident Chapter 91 will make a donation to Alex's bunk-bed project!

My next request came via e-mail on May 23rd from Julia Kirchenbauer. She and her husband Jon, were coming from Denver, Colorado to get a Stampe SV-4C which was in a hangar in Harrisonville, Missouri. Her request was, "Can we get some help taking the wings off and putting the plane on a trailer?" I was scheduled to work at the airport that day, so I called Mike Dooley who quickly said "I can do this." Mike called Dennis Davis and Jack Gress and on May 23rd Mike and his merry band headed south to Harrisonville Airport. Dennis had just put the wings on his Starduster Too biplane so he had exactly the right stuff to take the wings off a Stampe SV-4C biplane. This job took most of the day and their reward was a "well done" and a dinner from Julia and Jon. The Stampe (pronounced "Stomp") is a Belgian two-seat (two-holer) trainer biplane designed and built by Stampe at Vertongen in Belgium and is now somewhat of a rare bird.

So when you see Chuck, Mike, Dennis and Jack, thank them for making the chapter look good! And you will see them at our pancake breakfast and Young Eagles rally on June 18th. This will also be the airport Open House so YOUR chapter will need YOUR help. So come on out and share the load! I'll see you there!

Blue skies and tailwinds,

Larry

EAA CHAPTER 91
MINUTES OF THE MEETING
May 16, 2016

The meeting of EAA Chapter 91 was called to order at 7:00 P.M. by president Larry Young in the chapter meeting room at Lee's Summit Airport. The Pledge of Allegiance to the flag was led by Bill Herrold. Larry welcomed visitors and guests including Max Kirschner, Mark Edwards and Mitch Putnam.

The minutes of the April 18, 2016 meeting were approved as printed in the May newsletter. Pam Ratliff provided the balance on hand in the chapter checking account. She also offered chapter caps and badges or could order chapter badges, polo shirts or sweatshirts. She passed a sign-in sheet to record attendance as well as sheets to sign up to help at coming breakfasts and Young Eagles rallies.

The next chapter meeting would be Monday, June 20, 2016 and the program scheduled would be presented by Jack Gonzenbach on the CAMit Engine. The next board-of-directors meeting was scheduled June 6.

Larry thanked Nancy Inderwiesen and Mike Dooley for maintaining the yard around the meeting room. He thanked Mike and Bob Gurski for placing stakes to treat the trees and bushes; Larry Rhodes for taking on the hospitality position; and Bruce Hood and Chris St. Germain for sending out reminders of the meeting as well as of the breakfast/Young Eagles May 21. Mike Dooley provided a survey and encouraged members to complete one and return it to him. It was to learn of interests of members regarding possible aircraft building questions and techniques. The information would be used to hold workshops or as meeting programs.

Pat Lorie was downsizing and moving to a new home. Paul Rodriguez had been helping Pat with the transition and various items of possible interest to the membership were displayed in the hangar. Anything not taken would be disposed of. Chris Hope announced the Kansas City Flying Club would be hosting a chicken dinner at the Airline History Museum on June 30 with Rep. Sam Graves as the speaker.

Young Eagles coordinator, Chris St. Germain, reminded the members of the event Saturday, May 21 and encouraged pilots to volunteer along with ground help. He had one Boy Scout troop planning to attend. He asked members to help spread the word of the program. He also reminded members of the need to complete the background check before flying Young Eagles. Chuck Gosselin said setup for the Saturday event would begin Friday afternoon about 1:30 with help being welcome.

Regarding "wants and needs" Wayne Moore had a Garmin 196 Map GPS with accessories and was asking \$300; Phil Ishmael had an Icom A210, a panel mounted nav-com and asking \$700. Chuck Gosselin spoke of Alex, a young man from Guatemala he had met and flown to Miami County for breakfast. He was raising money to buy beds for the many people in Guatemala who may never have slept in a bed. Dennis Rowland moved the chapter donate \$130 to the cause; seconded by Chris Hope; motion passed. Chuck would obtain pertinent information for sending a check.

Following Steve Sokol's presentation on building an ADS-B, the meeting adjourned 9:45 P.M.

MAY'S YOUNG EAGLES EVENT

OPEN HOUSE AT LXT JUNE 18TH

Accompanying our next Young Eagles rally and breakfast will be LXT's annual open house. While our Young Eagles rallies draw a lot of people, the open house adds significant numbers to the crowd. It also increases the number of Young Eagles flights. If you can help with this exceptionally busy event, please join us on Saturday, June 18th. Come early for breakfast, then step in and help introduce aviation to a kid.

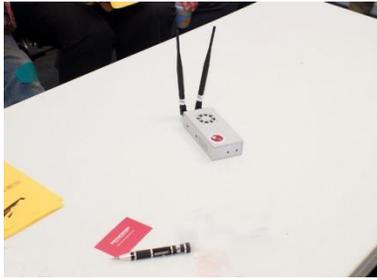

WOULD YOU LIKE TO BUILD AN AIRPLANE?

At our May chapter meeting, Mike Dooley distributed questionnaires asking for member feedback regarding attending aircraft building workshops. Many took the questionnaires and several have returned them. What Mike is trying to determine is exactly what topics have the most interest, so when returned sheets have every category marked, that makes the decision making process more difficult. If you would be interested in learning more about aircraft building, please get a copy of the questionnaire and pick the areas of most interest. If all the categories look intriguing, please select just a couple. That will help us put together more appropriate plans.

FORMER YOUNG EAGLE SOLOS!

Recently, Chapter 91 sponsored Isabella (Bella) Sterling's attendance at EAA's Air Academy. She then told us about it at our annual banquet. Well, Bella has continued her flying and we learned she recently soloed. Think Young Eagles doesn't have an impact? Think again. Go Bella!

LAST MONTH'S PROGRAM

Steve Sokol, the owner of Open Flight Solutions in Liberty, MO, (flightsolutions.com) wants to help make flying affordable. So with \$77,000 garnered from a KickStarter campaign, Steve developed the Flight Box ADS-B receiver kit that sells for about \$200. Steve clearly explained the ADS-B story and presented his very affordable solution. The Flight Box receiver kit is super simple to assemble and works very well! In fact, several Chapter 91 members have purchased, built and are now using his impressive product. Steve's knowledge and enthusiasm were contagious and highly appreciated by all our attendees. Great job, Steve, and good luck.

JUNE'S PROGRAM

The well-known Jabiru engine is made by CAMit, LTD in Queensland, Australia. CAMit has been in business since 1986 and has established itself as a leader in the general aviation engine industry. CAMit has developed some new products that definitely have appeal to homebuilt enthusiasts, so local CAMit distributor, Jack Gonzenbach and Josh Ray of Heart Of America Aviation in Olathe, will tell us more about what's on the market and what CAMit has on the way. The days of Continental and Lycoming engines dominating the market are waning, and the future belongs to new technologies. CAMit engines appear to be in that category so Chapter 91 members will want to learn more about them. Be sure to join us on Monday, June 20th at 7:00 p.m. to stay on the cutting edge of the aviation engine future.

KC FLIGHT FORMATION CLINIC HELD AT LXT

Lee's Summit Airport hosted two events on May 21st: Our Young Eagles Rally and KC Flight's Formation Flying Clinic. So there were RVs everywhere! Locals and out-of-towners alike flew in for the clinic and the eye candy was impressive! Here are some images if you missed it.
